Responsive reuse contract

Desktop ≥1280: expanded 256px navigation. Narrow desktop: 72px rail. Tablet/mobile: off-canvas navigation, stacked form fields, prioritized record cards or horizontally scrollable matrices with a pinned identifying column. Fullscreen ballot/poll keeps progress and bottom actions visible.

Tablet and narrow-desktop transformation

72px rail, wrapped controls, readable table and pinned-entry matrix. 1024px tablet specimen.

Matrix / Horizontal scroll with pinned entry

Keep entry identity visible; scroll judge columns rather than compressing score inputs.

PINNED ENTRY	JUDGE JAMIE	JUDGE AVERY	JUDGE SAM	JUDGE TAYLOR	WEIGHTED SCORE
01 · Team Aster	92.0	94.0	91.2	92.4	92.40
02 · Team Orbit	90.0	91.5	90.8	90.7	90.75
03 · Team Forma	88.0	89.4	88.4	88.6	88.60

← Identifying column stays visible · Judge columns scroll horizontally →

ⓘ **Mobile drawer specimen is under Shared Components**
At small widths, tables prioritize essential fields in record cards. Ballot and poll task actions remain fixed with safe-area padding.

Native components · shared across VOTRIX

Editable variants and label properties. Buttons and status badges are linked throughout the screen set.
